

Help create **safer futures**
for young Londoners.

Become a Safer London
Corporate Champion.

London is a City full of **opportunities.**

But not every young Londoner gets the chance to thrive.

Every day, thousands of young Londoners navigate a city where violence, exploitation and fear are part of everyday life.

18% rise

Knife related offences recorded by the Met Police in London have risen by 18% in the past year, with many cases involving young Londoners.

7 Years old

In London, children as young as 7 are being exploited by county lines gangs, coerced into drug trafficking and other criminal activities.

30,000
children carry a knife

An estimated 30,000 children in London carry a knife – that's equivalent to a third of Wembley Stadium's capacity.

THIS IS A CRISIS.

It's also **normality** for too many young Londoners.

Support where it's needed **the most**

Safer London works with some of London's most vulnerable children and young people – those who are experiencing high levels of violence, exploitation and harm.

We don't offer surface-level solutions. This is life changing, sometimes life saving work. This is intensive, specialist, trauma-informed support, grounded in understanding and built on trust.

We show up when other services can't or won't, and we stay – even when things get tough.

London's children and young people **deserve better.**

They are London's future and they deserve the opportunity to reach their potential.

They are artists, engineers, designers, coders, entrepreneurs – but only if they're given the chance to thrive .

When young Londoners are safe, supported and seen they flourish. They lead, create and innovate. They bring resilience, courage and talent into our workplaces and communities.

This is human potential being wasted. We exist to change that.

We see what's possible

We don't just help young Londoners escape harm.

We help them recover, rebuild and believe in a future they've never been allowed to imagine.

We don't focus on what's broken. We focus on what's possible.

600
